

Easily connect with mom or dad using the "Patch Place" app.

In addition to its other cool features, the **Patch Place** app can be used by our children to send letters, postcards, photos, and drawings to their incarcerated parent. Using our unique technology, children can use either our mobile app or our website to easily communicate with their mom or dad! Send 20 photos and a letter in less than 5 minutes!

www.photopatch.org

The Creating

Our Children are always thinking and tinkering. Their valuables, such as artwork, projects, grades and other accomplishments, can be easily shared with their parent.

STEP 01

STEP 02

The Uploading

We encourage children to take photos of those valuables so that they can be shared through the Photo Patch app. Once they have the pictures, they simply click "Upload"

The Sending

After children upload photos and letters to our app, we will print, package and ship the "snail mail" for them... and **for Free!**

STEP 03

The Reading

Before the parent receives the correspondence from the child, the prison will inspect it. We remind children and their parents to follow prison guidelines so that there are no problems.

The Responding

Currently, incarcerated parents do not have access to the "Patch Place" app. But they can still reply to the child via snail mail.

STEP 05

Help Us, Help Them!

If you know anyone that can benefit from the "Patch Place" app, **spread the word** and tell them to **download** it today!

POP-UPS!

HOW DO "POP-UPS" WORK?

THE ON-THE-SPOT PHOTO SHOOT THE KIDS WILL NEVER FORGET!

Not only can kids use our website and mobile app to communicate with their incarcerated parent, the Photo Patch team will deliver a photo shoot experience to the children! We provide various props to make the event more spectacular. The kids can even bring other valuables to take pictures with such as their recent report card or science project. We also bring snacks, food and other refreshments!

WE SEND THOSE PHOTOS OUT... THE SAME DAY!

After the children have had their photos taken by the photographers, our team shows the kids how to use the app or website to send the photos to their parent right at that moment! After the kids complete the easy upload process, the Photo Patch team will print, package and ship the contents to the incarcerated parent. "Snail Mail" has never been easier!

NOT ONLY DO WE WORK FOR OUR KIDS, WE WORK FOR FREE!

Sending photos, letters, and postcards to their incarcerated parent is COMPLETELY free for all kids. Photo Patch covers all costs. We receive donations from very cool people who believe in our vision. With more help from kind individuals and companies like them, we are striving to help all 2 million plus kids who'd like an easier way to communicate with their parent.

ARE YOU INTERESTED IN HELPING US HELP OUR CHILDREN?

We are only able to do all of the good that we do because some very thoughtful and compassionate people have offered us the resources we need.

If you believe yourself to be one of those people, we would greatly appreciate working with you to provide even more resources to our children. Get in touch!

ARE YOU INTERESTED IN PARTNERING WITH US?

We can not do this alone. We are always looking for individuals, organizations and businesses to collaborate with. Photo Patch Foundation prides itself on not duplicating services that others offer. If you have any ideas on how we can help you, or you can help us, please feel free to reach out so we can do good deeds together!

COME JOIN PHOTO PATCH FOR

L.I.F.E.

Love Intellect and Financial Education

LESSONS

WHAT ARE L.I.F.E. LESSONS?

Love, Intellect and Financial Education (L.I.F.E.) Lessons are 1-2 hour sessions held 1 Saturday per month. During these events, Photo Patch invites a special guest to briefly discuss whatever their specialty is, with our kids. Keep reading to learn about the cool things we'll learn!

WHY L.I.F.E. LESSONS?

The goal is to **expose** our children to things they are not learning at their school or in their household. The children may not like all of the L.I.F.E. Lessons (pun intended), but they are often introduced as new **jewels** they will continue using throughout life.

LOVE LESSONS

Children learn many different things ranging from leadership development, the power of listening, effective body language, healthy honest communication, empathy, how music heals and more!

INTELLECT LESSONS

Public education institutions teach our children the fundamentals, but Photo Patch believes our children are smart enough to handle some higher education. We'll invite specialists in the realms of computer gaming, robotics, app development and even slime creation (it's real chemistry). These are fun, yet challenging sessions!

FINANCIAL EDUCATION LESSONS

The children that we work with are some of the most determined children around! However, determination with no **direction** does not always lead to the best financial decisions. We invite financial gurus to talk about the importance of credit, money management, taxes, accounting, budgeting, investing and more!

PRESENTER RULES

- No boring presenters! Give our kids some energy!
- If they are learning it at school, no need to cover it.
- Don't expect all kids to love what you do....one is enough!
- No pressuring kids to participate.
- Show, don't tell.
